ZMC12

User Manual

INTRODUCTION

Auto Clamping Dashboard Mount is the last mount you'll need to purchase. The sleek black design ensures that it matches with every dashboard and car environment it is put into. It can bend in all different types of directions so you could place it and use it however you would like. The suction cup doesn't only suck the product to the dashboard or windshield but it also has a sticky like adhesive on it that way there is no possible chance it could fall or tip over in the middle of your journey.

PACKAGE CONTENTS

- 1x Clamp and Release Phone Holder
- 1x Socket
- 1x Suction Cup Stand

3

HOW TO USE

Constructing the Mount

- 1) Unbox all pieces and make sure you have everything
- 2) Screw joint part onto the back of the mount body but loosely
- 3) Leaving it loose will allow for the ball to pop in easily
- 4) Once the ball is in socket, tighten knob to make sure its tight
- 5) Take plastic peel off of suction cup
- 6) Place mount on dashboard or windshield in desire location
- 7) Squeeze the wings in to expand the clamp
- 8) Put phone in clamp and press it towards the back of the mount to close the clamps and tighten in
- 9) Pull down lever on the bottom of the stand to make sure that the suction is extra secure
- 10) Use the two feet on the bottom to extend and make it longer so your phone fits better if phone is larger
- 11) Squeeze wings again to release phone
